How to play and win

The play area is made up of three sections, one labelled 'SCRATCH HERE FIRST – YOUR COORDINATES' (the "Your Coordinates Section"), a grid labelled 'TREASURE MAP' (the "Treasure Map") and a table labelled 'PRIZE TABLE' (the "Prize Table").

The Your Coordinates Section consists of twenty-one  motifs.

Under the coating of each  motif is a coordinate which is made up of one letter and one number (a "Coordinate Play Symbol", together the "Coordinate Play Symbols").

The Treasure Map consists of 49 squares which each have a coordinate located on the Treasure Map. At the top of each column on the Treasure Map is a number from 1-7 and on the left of each row on the Treasure Map is a letter from A (top row) to G (bottom row).

The Prize Table consists of the following motifs and associated text:

'BEETLE'

'SCROLL'

'FOOTPRINTS'

'TORCH'

'SPADE'

'GOLD KEY'

individually an "Object", together the "Objects") and the word 'PRIZE' below each of the Objects (the "Prize Box").

To play, first scratch off all of the coating in the Your Coordinates Section to reveal twenty-one Coordinate Play Symbols. Then scratch off only those squares on the Treasure Map that have the corresponding letter and number combinations as the Coordinate Play Symbols revealed under the coating in the Your Coordinates Section.

You will, providing the requirements of the Rules and these Procedures are met, win a Prize if, after scratching off the coating of only those squares in the Treasure Map that have the corresponding letter and number combinations as the Coordinate Play Symbols revealed under the coating in the Your Coordinates Section, You reveal play symbols for the

Treasure Map ("Treasure Map Play Symbols") which form a complete Object(s) under the coating in the Treasure Map. The Prize will be equal to the amount of the Prize Symbol, shown with its matching Prize Caption, under the coating of the Prize Box in the Prize Table immediately below that Object.

Players can win up to 5 times on a Scratchcard.
